"Through advancements in our North American brand led strategy we delivered a record quarter from BioSteel and maintained #1 share in the premium flower and pre-rolled joint segment, while driving growth of our premium Doja and mainstream Tweed brands. As our U.S. THC ecosystem continues to strengthen with Acreage operating in the recreational cannabis market in New Jersey, along with the expansion of Wana across North America, we remain focused on delivering a robust pipeline of innovation aligned to what consumers are looking for – premium, infused, and ready to enjoy."

David Klein, Chief Executive Officer

"The cost saving program announced earlier in the quarter combined with sound expense discipline contributed to a meaningful decline in operating expenses during the quarter. We expect cost savings to ramp in the second half of the year, enabling us to execute on our path to profitability even as we continue to invest in strategic growth initiatives including in BioSteel and our U.S. THC ecosystem."

CANOPY GROWTH REPORTS FIRST QUARTER FISCAL 2023 FINANCIAL RESULTS

Revenues:

Net revenue of \$110 million in Q1 FY2023 declined 19% versus Q1 FY2022. Total global cannabis net revenue of \$66 million in Q1 FY2023 represented a decline of 29% over Q1 FY2022 driven in part by a decline in value flower sales in the Canadian recreational cannabis market due to a deliberate business transition to focus on higher margin, premium and mainstream products. Other consumer products revenue of \$44 million in Q1 FY2023, represented an increase of 1% over Q1 FY2022. Excluding the impact from acquired businesses and divestiture of C³, net revenue declined 17% and global cannabis net revenue declined 28% versus Q1 FY2022.

Gross margin:

Reported gross margin in Q1 FY2023 was (1%) as compared to 20% in Q1 FY2022. Excluding non-cash restructuring costs recorded in COGS of \$4 million, adjusted gross margin was 2%. Gross margin in Q1 FY2023 was further impacted by lower production output and price compression in the Canadian recreational business, a shift in business mix, and a decrease in the amount of payroll subsidies received from the Canadian government pursuant to a COVID-19 relief program.

Operating expenses:

Total SG&A ("SG&A") expenses in Q1 FY2023 declined by 8% versus Q1 FY2022, driven by year-over-year reductions in General & Administrative and Research and Development expenses, offset by increases in Sales and Marketing.

Goodwill impairment:

The Company recognized a non-cash goodwill impairment of \$1,725 million related to our cannabis operations reporting unit which is included in our quarterly net loss. This impairment represents the full goodwill balance associated with the cannabis operations reporting unit and was triggered as a result of the decrease in the Company's market capitalization in Q1 FY2023.

Net Loss:

Net Loss in Q1 FY2023 was \$2,088 million, which is a \$2,478 million increase in the net loss versus Q1 FY2022, driven primarily by the non-cash \$1,725 million impairment in goodwill, and non-cash fair value changes.

Adjusted EBITDA:

Adjusted EBITDA loss in Q1 FY2023 was \$75 million, an \$11 million increase in Adjusted EBITDA loss versus Q1 FY2022 primarily driven by the decline in gross margin, partially offset by the reduction in our total SG&A expenses.

Free Cash Flow:

Free Cash Flow in Q1 FY2023 was an outflow of \$143 million, a 23% decrease in outflow versus Q1 FY2022. Relative to Q1 FY2022, the Free Cash Flow outflow decrease reflects a decrease in the cash used for operating activities and optimizing our capital expenditures as part of the previously-noted restructuring actions.

Cash Position:

Cash and short-term investments amounted to \$1.2 billion at June 30, 2022, representing a decrease of \$0.2 billion from \$1.4 billion at March 31, 2022 reflecting primarily EBITDA losses, and the upfront payment made as consideration for the options to acquire Jetty Extracts upon federal permissibility of THC in the U.S.

Canadian Cannabis

- Recreational B2B net sales in Q1 FY2023 decreased 38% over the prior year period primarily due to the continuing impacts of price compression resulting from increased competition and lower sales in the value-priced dried flower category. These factors were partially offset by a more favourable product mix due primarily to a decrease in the volume of value-priced dried product sold compared to the prior year and a full quarter of net revenue contribution from Supreme Cannabis.
- Recreational B2C net sales in Q1 FY2023 decreased 28% versus Q1 FY2022 largely driven by increased competition from the rapid increase in third party retail locations across provinces.
- Medical net revenue in Q1 FY2023 decreased 1% from Q1 FY2022 driven primarily by higher average order sizes offset by a fewer number of orders.

International Cannabis

- C³ revenue in Q1 FY2023 decreased 100% year-over-year as a result of the divestiture that was completed on January 31, 2022.
- Other revenue in Q1 FY2023 increased 73% over the prior year period primarily due to bulk cannabis sales by Supreme Cannabis into the Israel medical cannabis market and increasing global medical sales including to Australia.

Other Consumer Products

- BioSteel sales in Q1 FY2023 increased 169% over Q1 FY2022 in part due to continued growth in our distribution channels and sales velocities across North America and higher international sales.
- Storz & Bickel vaporizer revenue in Q1 FY2023 decreased 35% over Q1 FY2022 due primarily to temporary disruptions with certain distributors and slowdown in consumer spending in North America and Europe.
- This Works sales in Q1 FY2023 decreased 15% over Q1 FY2022 due in part to softer performance of certain product lines, which benefited during the period of COVID-19 restrictions in Q1 FY2022 and the phasing of orders for certain products in Europe to Q2 FY2023.

The Q1 FY2023 and Q1 FY2022 financial results presented in this press release have been prepared in accordance with U.S. GAAP.
